

17 May 2157

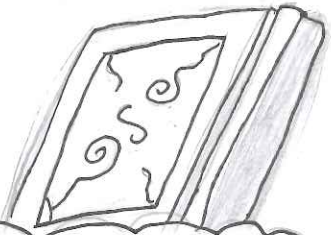

Today, Tommy found a book, a real book...

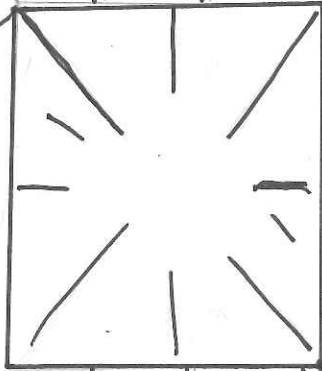

LIGHT LAMP 3000

It was a very old book and Grandpa once said, when he was a little boy

HIS GRANDFATHER TOLD HIM THAT

"ALL STORIES WERE PRINTED ON PAPER"

Hey Mang! Come here

Yes?

A telebook?

Are you stupid? In the past, telebooks didn't exist. Stories was printed on paper

Look the pages are crinkley

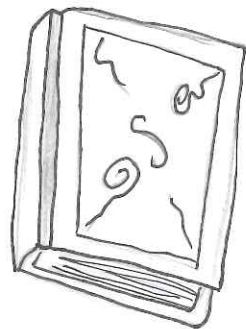

2010

Gee! a book?!

I think it's "real" book

What is that?

I think it's... a... book?

1/4 : The real book

18 May 2157 Tommy's House

Stupid school room!!!
I hate you!!!

Mang! keep calm...

Sorry but school is horrible...

And being too!

Okay...
Do you want read
the book with me after
school?

GEE! I'M LATE

Humm...yeah why not?

Okay bye Mangie

2/4 : Disfunction

I'm back

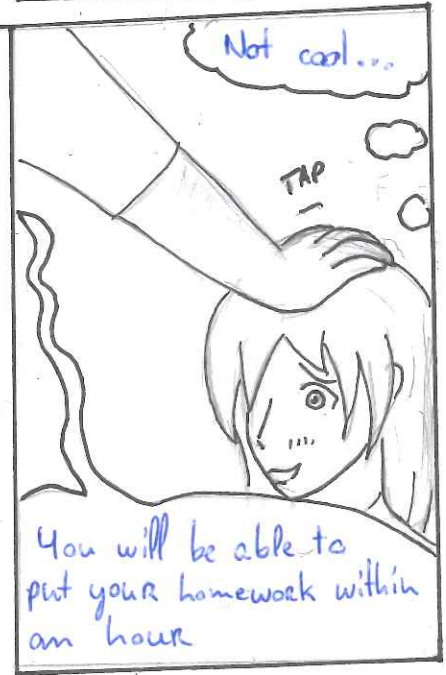

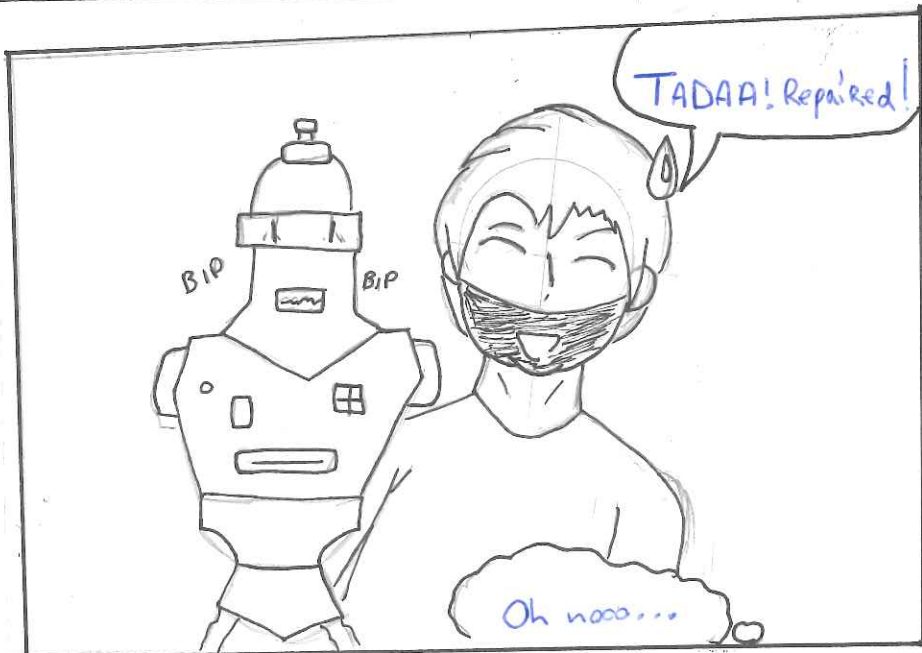

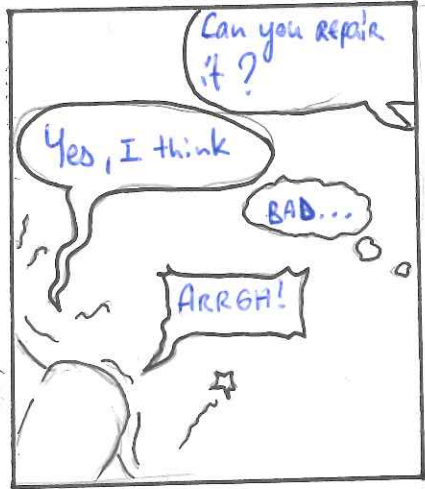

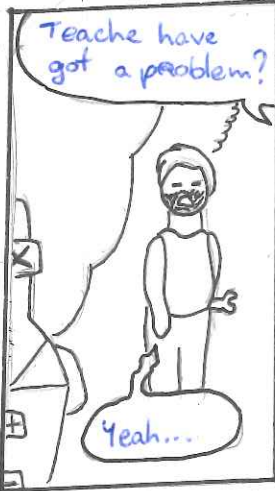

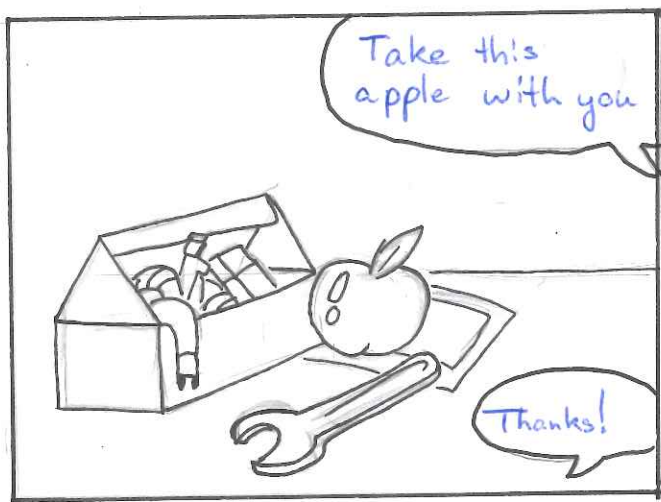

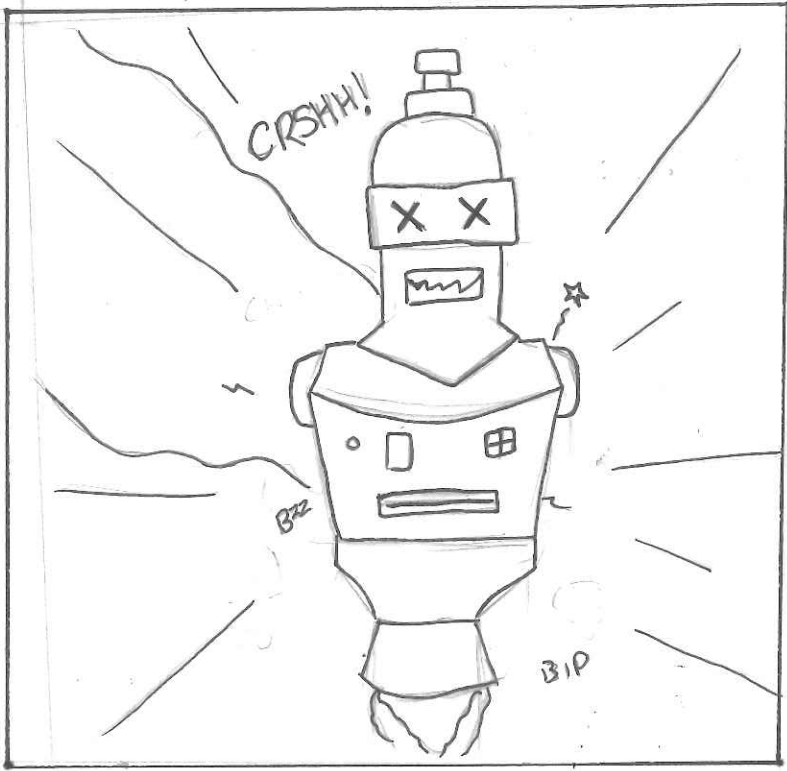

HI! Don't worry pudding
you aren't late

What?

Yeah your teacher is with
the inspector

Really?!

2/4 : Disfunction

3/4 : Fun

MARGIE'S ROOM
18 May 2157

3/4: Fun

May, 2157
MARGIE'S ROOM

Anyway, they had a teacher.

Yes, sure but it wasn't a regular teacher. It was a real teacher. Maybe a man

How a man could be a teacher?

Teachers of the past just told the boys and girls things and gave them homework and asked questions

Mans aren't smart at all to be a teachers

My father is smartest than my teacher

He can't. It's a man.

I wouldn't want a strange man come in my house and teach me

You don't know much, Margie! The teacher didn't live in your house. They had a special building and all kids went there.

All kids learn the same things?

Yeah and they were the same age!

Nom told me a teacher to be adapt to the mind of each students it teaches and that all the kid has to be thought differently

Just the same they didn't do it that way. If you don't like the book you don't have to read it

I didn't say that. I want read about those ~~book~~ funny school!

Margie! It's schooltime!

Not yet Nom!

4/4: Mangie's Revolution

TOMORROW

Can I read the book some more after school?

Maybe see you!

Bye...

LATER

Okay...

Today's we'll doing arithmetic lesson. It's on the addition of proper fractions...

When we add fractions $\frac{1}{2}$ and $\frac{1}{4} = \frac{3}{4}$.

That could be fun be with our friend when we are at school. The students of this book was so lucky. I would like live in the past... Hum... the fun they had

The End
