let's  
GO !

le volcan  
et ses  
alentours

"Le piton de la Fournaise" is a very active volcano.

You can do several activities such as hiking, visit tunnels of lava ...

A museum is also located near the volcano

One can discover several types of volcanic rocks information about

volcanoes and a cinema 4D during volcanic eruptions

The walks around the volcano are superb, the marked trails are very well maintained by l'ONF
