

Summer in Ireland

Posted : September 15th 2018, by Mark

This summer I spent a week in the west of Ireland with my friends. It's really the heart of the country and in fact people still speak Gaelic there.

First, we spent quite a lot of time in Connemara- the landscapes are so amazing! Then we were lucky enough to be there during the Clifden Traditional Music Festival.

It was fabulous : it took place in all the streets and pubs of the town.

The bands played traditional Irish music. It was so great we felt like dancing all the time. I even played the guitar on stage with the musicians! It was great fun!

We didn't have beer because we are teenagers but lots of tourists were drinking!

The day after we rented a car to visit a castle. We stayed in a little cottage and we went fishing by a lake on the last day!

This was our best holiday ever, I think the west of Ireland is the most wonderful place in Europe!
