

Stogie T

The 41 year-old artist Stogie T whose real name is Tumi, did a concert at the Kerveguen in Reunion Island.

He was born in Tanzania on the 16th August 1981

The place was full of students from different schools.

The music was very loud and we could feel like the room was shaking.

Even if the spectators didn't know the songs, StogieT managed to make everyone sing.

I liked the show because there was a good atmosphere even if we didn't know his songs, he taught us one of his songs and I loved it. Everyone was kind and it was a very pleasant moment.
