

On Wednesday, October 2nd, 2024, we had a surprise brunch for Alienor. She is 22 and she was born on June 26th in Boston. It's in the U.S.A so she's American. She tasted local food for example traditional dumplings (= "bouchons"), green mango, pineapple, banana fritters, "pâté créole", "bonbons cravates" (a type of honey cakes), papaya jam, guava jam, lychee and banana jam. After tasting these home-made dishes prepared by the 4^{ème} LCE pupils and their parents, Alienor tried different local soft drinks, such as Séga, Pokka and Cot. We were very very happy about the brunch because it was delicious and Alienor said she was impressed and excited.

She is in our school to work as an English Language Assistant to help the pupils make progress in English. She lives in Bois d'Olives and she is in Reunion for seven months. She is going to go hiking around the island because she loves it. She travels a lot because she has already visited Austria, France, Switzerland and Germany. Her older sister lives in Paris but Alienor said she liked Paris but she prefers nature.

She loves reading, horror movies, baking cookies and marble cakes. She's fond of cookies, chocolate, and pasta.

Her favourite animal is the elephant but she doesn't like spiders. She doesn't have any pets but she would like to have a cat. She doesn't have any children.

She's crazy about Taylor Swift and Billie Eilish and Drake.

She lives in Boston. There are 700 000 inhabitants.

Halloween is a very important celebration for the American people.
