London by night was just beautiful, I was amazed! London, it's just beautiful I don't have a lot of words for describing London, it's just beautiful. It's my favourite destination.

A lot of memories!

DAY 6

THE TOWER OF LONDON

- Exploring the rich history of the city

Look for the Raven's cages

A story from Charles II's time says that if the ravens ever fly away, the monarchy will fall. If you see one try to take a picture before they escape - but be careful, they can peck!

Find the execution memorial sculpture (close to the Chapel)

Being executed at the Tower was an honour reserved for only the highest ranking prisoners. Look at the names on the sculpture. They include three queens.

Go to the Jewel House

The Imperial State Crown contains the second largest diamond in the world, the Cullinan II. Can you find Cullinan I, also called the Star of Africa, which is the largest ever found?

Explore three sides of the Tower's amazing story

FORTRESS

PALACE

PRISON

THE LONDON EYE

We can see all about London from the London Eye and extremely pretty. It's the "must have" when you come in London.

We can see:

- => Big Ben => Buckingham Palace
- => River Thames => Tower Bridges
- and many famous places in London from the London Eye.

## THE BIG BEN and THE HOUSES OF PARLIAMENT

Big Ben was beautiful, with some golden parts that stood out. I didn't imagine it like that; I thought it would be smaller and I didn't think there were golden colours.

The house of Parliament is huge. From the bridge of Westminster, there is a beautiful view of the river Thames and the House of parliament.

**BIG  
BEN**

## DOWNING STREET

There were big barriers and a police officer when we arrived in front of Downing Street, where the British Prime Minister lives. It is a long street with many houses.

## GETTING TO LIVERPOOL

### - What I expect to see when arriving there:

When I arrived in Liverpool, I found the city big and beautiful.

### - Differences and similarities with London

I found that there were fewer buildings than in London. I liked the place where we were.

### - The youth hostel, my room and my roommates:

When I arrived at the hostel, the reception was very nicely decorated, there was even a pool table. The room was bigger, but maybe it was because there were only two of us.

### - Discovering an industrial city

The city is beautiful. The view of the sea was amazing. There were also ports. There were many cars and a lot of traffic, like in London. I find the city amazing.

- **Discovering an English school** Find out when the school was created, about the age of the pupils, their different school subjects, describe their uniform, a typical school day, etc; Describe what you've seen, done and learnt during the day.

School in England are different from the ones here. First, they wear uniforms. They don't have the same subjects as us; for example, French is an option. They have different rules. They play English sports like cricket. We also ate in the canteen, and it was very good. Then we attended some lessons, like a French lesson. We also had a music lesson with a choir, and we had to follow and sing.
