

PROJET : « OUR ECO-FRIENDLY SCHOOL »

The bee hives

In our school there are 2 bee hives. They arrived during the October holidays. There are between 1000 and 2000 bees per hive. They will produce honey in 4 to 5 months, probably in February and Romain, the beekeeper, will collect it and sell it to the teachers and the staff.

The bees eat the pollen from the flowers that are around the school.

The bees are afraid of noise. That's why they are quite far from the classrooms and the playground as they are situated behind the school.

Bee hives

We would like to thank the class of "3ème prépa-métiers", Mr Bauvies' daughter and Mr Bauvies.
